INSTALLATION EXAMPLE

As we know, the air conditioner leaking water is not fault but it is normal for the condensate drain of the conditioner due to the hot and cold air exchange with the radiator.

This range of accessories for the collection and drainage of the condensate of the external air-conditioning unit, helps us to solve this need.

ESEMPIO DI INSTALLAZIONE

Come sappiamo, l'unità esterna di condizionamento che gocciola acqua non è rotta ma è il normale scarico della condensa causato dallo scambio di aria calda e fredda con il radiatore.

Questa gamma di accessori per la raccolta e lo scarico della condensa dell'unità di climatizzazione esterna, ci aiuta a sistemare questo inconveniente.
